You gotta let it go
Just let it take you by surprise
Don't fear the unknown
Just take a chance
And open your eyes

Walk on the edge
Jump into the deep end
Forget all the thoughts that are
Telling you different
You say you're alive
But you've barely been living
So pick up the pace cos

We're not gonna live forever
It's now or never
If we go down
We're going down together
Live for each moment
Before it's over
We're not looking back
We're just moving forward
Singing
Na na na na na na na
Just sing it
Na na na na na na na
Just sing it now

You gotta take control
And just leave the past behind
It's not set in stone
So just take it one day at a time

Forget your regrets
Give yourself a reason
To live like the world could end
Any second
You've finally found what you've always been missing
So pick up the pace

We're not gonna live forever

It's now or never
If we go down
We're going down together
Live for each moment
Before it's over
We're not looking back
We're just moving forward
Singing
Na na na na na na na
Just sing it
Na na na na na na na
Just sing it now

We're not gonna live forever
It's now or never
If we go down
We're going down together
Live for each moment
Before it's over
We're not looking back
We're just moving forward
Singing
Na na na na na na na
Just sing it
Na na na na na na na

We're not gonna live forever
It's now or never
If we go down
We're going down together
Live for each moment
Before it's over
We're not looking back
We're just moving forward
Singing
Na na na na na na na
Just sing it
Na na na na na na na
Just sing it now

Just sing it now
We're not gonna live forever!
