Invasion inside my head, some say I'm better off dead
I taking control of me, to be or not to be
DNA of the alien race, either way I'm a basket case
I hear my voice again, I don't know where I've been

Tonight's a night to dismember
Run and hide or cease to be
A night of fright to remember
Something is living inside of me...inside of me

Psychotic rage within, it's time the hunt begins
This cosmo killing mind, will leave no soul alive
I can't control this urge, to leave you in the dirt
The last thing that you'll see, alien terroristry
