what's the go with all these new set of rules that you
live by?
'fraid you might die? watch them go by...

what's the go with all you scene suckin' fuckers you so
high?
yeah your so high? watch em watch em go watch em
go by

sleeping orders won't get you through the door,
you want more, watch em go by...

slippery lips ain't done sinking ships in the mean time,
you dream of lines, watch em watch em go watch em
go by

i don't know why you lay me out to follow,
i don't know why you lay me outside,
cos science in golden, science is golden,
watch your soul cos science is golden,

i don't know why you lay me out to follow,
i don't know why you lay me outside,
cos science in golden, science is golden,
watch your soul cos science is golden,
science science science is go-olden, science science
science is go-olden,
science science science is go-olden, science science
science...

watch em go by, watch em go by, watch em go by,
watch em go by,

i don't know why you lay me out to follow,
i don't know why you lay me outside,
cos science in golden, science is golden,
watch your soul cos science is golden.

i don't know why you lay me out to follow,
i don't know why you lay me outside,
cos science in golden, science is golden,
watch your soul cos science is golden.

science science science is go-older, science science
science is go-older,
science is golden, science is golden.
