Chainsaw wielding fiends, feast well while the demon  
sings  
Cannibalistic freaks say, welcome to the bottom of the  
food chain  
Look who's stalking now, the next victim in a towel  
Grave robbers in the rain, digging up the dead to find  
a better brain

Big knives, Last cries, Last lives  
Blood stains, Remains, No brains

TV, TV, TV, Terror vision for me  
TV, TV, TV, Total violence for free

Ultra exploding heads, do a line for the living dead  
Telephonic with a devil scream,  
Gonna blow your mind with the middle finger  
widescreen  
It looks like Scary Potter, doing tricks with the  
neighbors daughter  
Killer clowns from outer space, shoving cotton candy  
right in your face

Terror TV, Terror TV
