### "Hate to Love"

Visit "[Hate to Love](#)" on MotoLyrics.com

You must hate me, I must make you sweat.  
Direct all your anger at what you just don't get.  
I need to find a way out of this place into your time.  
Wish you could see my way. We caught up and I'm on top.  
Laces up in a bow, oh god I feel it now.  
Creases in the palm of my hand, she says she sees it all.  
Take a look around. I don't need you anymore.  
Take a look around before I clean you off my floor.  
You must hate me, I must make you sweat.  
Direct all your anger at what what you just don't get.  
I need to find a way into your place out of this time.  
Wish you could see my way, with my words, and the things I'll do to you.  
(Into your place, out of this time)  
with my words and the things I'll do to you  
Stay. I wouldn't trade it for the world because  
I have you. You. All of you.  
You must love me. I'm gonna make you wet.  
Direct all your energies at what you completely get.
