What, I just wanna lay you back  
Nah, you ain't gotta count my stack  
Nah, it ain't goin down like that  
Damn yo' ass is fat  
I just wanna hit it, and quit it, if it's on like that  
If I ever have to call your back  
Cause you got a man, and I got a woman  
But one ain't enough I need more to keep me comin  
And I'm, runnin away, cause it's time to play  
Nowadays chickenheads all wanna date a DJ  
MC, sport star, nigga with some mo-ney  
That means locked down.. girl laugh like that shit's  
funny  
I wish some of these broads cooked better than they  
look  
Cause nowadays, they get you hooked, overbooked 'til  
you shook  
Niggaz look, and learn for your own concern  
These broads heatin shit up on mosh I burn  
Down in the projects, or even up in the hills  
Shit's real, these women want money and deals...  
Yeah, get paid

"Now you know how it is brothers and sisters  
When two brothers and sisters get to fightin  
Them motherfuckers get killed! Damn right  
How they go at your ass for BLOOD!  
You better damn believe it baby  
They don't fight like they're fightin a stranger  
No they're fightin to kill baby  
And that's a damn shame, cause that..."

Nowadays your boy probably tryin to hit your girl  
While you tryin to work to buy the hoe diamonds and  
pearls  
Fo' sho'~! It goes down like the girl on her knees  
Tryin to please every nizzle gettin drunk smokin trees  
While you 9 to 5, 'bout to 25 to life it  
That hoe on some sheist shit, cause you find out how

trife it's  
the way it is, all she wanna do is swallow kids  
This hollow dip's out to lunch all up on a trip  
A nigga like me ain't even got time for it  
Cause I ain't givin up shit unless I want to give it  
Niggaz slave to the grave from the weak down to the  
brave  
Smart to the stupid gettin stuck by Cupid  
Nowadays, clock G's, ain't got time for deez  
Fake dumber than Louise, even though they OOH-WEE!  
Nowadays, nowadays niggaz smile in your face  
Havin friends is a waste, detrimental like a nigga ten  
pace  
Ten, nine, eight, seven, six, five...  
Four... (YEAH!) three..... two..... ONE!!

Yeah, uhh, here we go c'mon  
Yeah, yeah, yeah
