Well oh mother,
oh where did your first son go
where did your daughter go
did you leave them alone
well alright

well oh father,
oh where did your second son go
where did their mother go
did you leave them alone
well alright

well now its my turn
my turn to start mothers family
oh well another calamity
i'll leave them alone
well alright

try and understand
and take another drink
and i'm feelin' bad
goin' crazy, i'm feelin' hazy

Is this ok, baby, baby...
Is this ok, baby, baby...
Is this ok?
Is this ok?

well oh father
where does this leave us on the family tree?
stricken and full of disease
where do we go?

well oh mother
hides it in her pocket with the other things
like stolen rings,
where do we go?
how we go again?

lets try another way
dont like how things stay the same

feelin' crazy, a lil' hazy

is this ok, baby, baby
is this ok, baby, baby
is this ok, baby, baby
is this ok family?
is this ok family?
is this ok family?
is this ok family?
is this ok?
is this ok?

well oh mother!
oh whoa, where did your fuckin son go?
well your daddy has gotta go
did you leave them alone again
well alright

well oh father!
where did your second son go?
where did their mother go?

is this ok, baby
is this ok, baby
is this ok, baby
is this ok
is this ok
is this ok
is this ok, baby
is this ok, baby
is this ok?
is this ok?
is this ok?
