Never did I imagine that you would crease like once
romanced bedsheets.

Luke: Don't let her words bring u down x2

Can we pick up the pace?

Are we moving too fast?

To fast.

Looking for the answers lost within

Luke: Don't let her words bring u down x 2

Looking for the answers to stop fighting.

Just to make love under clearer skies.

Luke:I can feel you when you crawl

I can feel you when you kill

I can feel you when you leave

Lee: Join The Fight x 4

I can feel you when you crawl

I can feel you when you kill

I can feel you when you leave x 2

Lee: You will, join The Fight!!

Nowhere you can run

Nowhere you hide

No, Can you stop one more time.

Can you stop breathing out?

Luke: When you leave..x 2

Join the fight (Screaming) x 7

Join the fight (whispered) x 6

Waiting for you x 6
