I saw you
talking 'bout plagues and peoples
you're on override
you are lost on the Great Divide

You see
that you're preaching old ideas
that when worlds collide
you are lost in the Great Divide now

and homeless in the street
make you feel the freak
and your future looks so bleak
your ideal world
becomes antique
Now, you're lost and you say
standing, say we're equal
but, the valley's wide
and you are lost on the Great Divide

On the Great Divide
on the Great Divide
on the Great Divide
on the Great Divide now
