Join my world of evil pain  
A smell of lewdness is diffuse in the air  
The hall is quiet but soon you'll screech  
So do it with hate  
We're the masters of our own desires  
Scream for me, do it loud  
From your first victim, life ends  
Bathing in his blood, you'll come!  
Show me your lust  
Show me your hate  
Give us the power  
To desecrate  
Gods of cruelty  
Gods of sin  
Show us the way  
To win  
Crush, kill, destroy  
Crush - the envy  
Kill - your enemies  
Destroy - the bounds  
Don't beleive in tears or smiles  
'Cause worms are our only true friends  
A kiss is the eve of a vomit  
The feeble will loose in the end
