"The Last Slaughter"

Visit "[The Last Slaughter](#)" on MotoLyrics.com

Screams of chaos
the final bloody is started
kill or die
save your putrid life
is the enf of universe
the death is on your back
dark angels on massacre
make the blood turn black

The last slaughter

Wrath and torment
is the God's final slaughter
now our mission
finally is terminated

Satanas want
fuck your putrid life...
burn in hell

Panic and fear
on this hour fell
now the God's son
are falling to hell...
