If biased, the facts all obscured, unrecognizable image
of truth

The masses comply while the cancer grows stronger
Corrupting the core, deny and disown a refusal to lose
Undying conviction, a war fought daily in secrecy
sworn

Sabotage, overthrow, disobey and demolish
Desecrate, fuck it all
Nothing is holy

Nothing left to explore, a savage condition
The monstrous becomes the official
A permanent state, a condition of ignorant bliss
Undo their main device

Sabotage, overthrow, disobey and demolish
Desecrate, fuck it all
Smash it up, disinform, redirect and confuse
Never mind, fuck it all
Search and destroy

So clean your hands and blame it all on dignity
Cleancut perfection and highborn ideal
(But)
We're not born equal, I quote that and swear
Their liberal bullshit is only a scam

Sabotage, overthrow, disobey and demolish
Desecrate, fuck it all
Smash it up, disinform, redirect and confuse
Never mind, fuck it all
Search and destroy
