HE:

Left me down in Touson
Fightin' for a chance
You don't have to stay here
Charge and tensions for a dance

Since you left I'm only half a man
Just holdin' on
To a dream where we both belong
Two as one, hold and strong

Say it's only me
That you love
Say it's only me
You're taking care of
I'll never let you go
Darlin' you would know
Our love would always be
Please say it's only me

SHE:

I left you 'cause I loved you
A spirit should be free
Why should you wanna settle down
With a downtown-girl like me?

Why you searched until you found me?
I just don't understand
But now you're here
You make me feel so strong
I know where I belong

Say it's only me
That you love
Say it's only me
You're taking care of
I'll never let you go
Oh, Darlin' you would know
Our love would always be
Please say it's only me

HE:

You walk the way before I die
I couldn't help but wonder
How could you doubt me?

SHE:

I didn't want to, can't you see?
I thought that you'd be better on to live
Without me

BOTH:

But calling hard, we fall apart
A broken man
A broken heart

Say it's only me
That you love
Say it's only me
You're taking care of
I'll never let you go
Oh, Darlin' you would know
Our love would always be
Please say it's only me
Only me
