[Intro: Sweetleaf]

Oh, give it to me

Oh, give it to me (I've got to have it)

[Chorus: Sweetleaf]

If there's a cure for this, baby I want it, want it

If there's a remedy, baby I need it, got to have it

[Remedy]

This is a story brought before me, from the wise and  
the old

Take it down from the past, before ya eyes to unfold

Now I took this, crafted it and made it the mold

For all those rainy nights, left out in the cold

Yeah, the rat race, movin' at a nine-to-five pace

A life story based on paper chase

What's goin' on? Something's wrong in the world that  
we live

But if we hold on long enough it gotta give

How many times must history repeat in itself

Face defeat, mankind, be beat by himself

Generations done passed son, look at the last one

There's no more legends in the making, ask one

Man, money, then power, sex, rock and drugs

Economics, politics and thugs

I said, man, money and power, sex, rap and drugs

Anxiety, society fucks

[Sweetleaf]

I've got it have it...

[Chorus 2X]

[Remedy]

Unspoken words only heard from behind the closed  
door

Politicians hide themselves away, but started the war

Watch the day go out in fight, they leave that up to the  
poor (Give it to me)

And if you got another minute, I can tell you some more

Aiyo, never judge a book by it's cover, never cheat on

ya lover  
Never rob, never steal, love thy brother (Give me a  
remedy)  
Never count ya money, always count ya blessings  
(Yeah-yay)  
Never say never, always learn ya lessons  
In the land once filled wit mad milk and honey (Uh-huh,  
give it to me)  
What a man wouldn't do just for the taste of money  
(Yay)  
What a woman wouldn't do for the touch of a man (Giev  
it to me)  
It's those feelings deep inside of you, you don't  
understand  
Lookin' for ya self, but you lost from within  
Forever blinded by the night, like Hollywood glimpse  
Yo, you tempted by the lust, that's the ultimate sin  
Pealin' back, crawlin' outta ya skin, let me in

[Sweetleaf]  
I've got to have it...

[Chorus 2X]

[Sweetleaf]  
If there's a cure for this...

[Remedy]  
Let me inject you, Rx, stress, Remedy, relief elixir

[Sweetleaf]  
If there's a remedy... give it to me

[Remedy]  
Let me infect you, certified cause  
And effect ya mixer

[Outro: Sweetleaf]  
If there's a cure for this... give it to me  
Just give a Remedy, if there's a Remedy, yeah  
I've got to have it  
If there's a cure for this, baby I want it  
Just give me a Remedy  
If there's a Remedy, baby I need it  
For this... come on now, and give it to me  
I need it, hey hey, oh, give it to me
