I watched you go  
But you're still in the dust and the dirt of this home  
I said my goodbyes  
But I can't shake you from my mind  
My mind, no I can't shake you

Yesterday yes I was kissing someone new  
But my baby I wished I was kissing you  
I said my goodbyes but I can't shake you from my mind  
My mind, no I can't shake you

It's no secret cos I can't keep it  
You come and go when I'm sleeping  
I know you can't see me  
I know you can't hear me  
But I wish that your ghost would leave me alone

Yesterday yes I was kissing someone new  
But my baby I wished I was kissing you  
I said my goodbyes but I can't shake you from my mind  
My mind no I can't shake you from my mind  
My mind, no I can't shake you
