the world must seem pretty  
pretty big to you  
just you wait and see, see what they can do  
Crying out I'm tired  
what do you need now  
I cannot work it out

we're floating down the street  
so innocent and sweet  
we're tearing through your home  
we're no one now you know

dying from the heat  
walking off your feet  
dragging down my arm  
more ways to do me harm

chemical me now  
stop the lights somehow  
The shadows in the dark

we're floating down the street  
so innocent and sweet  
we're tearing through your home  
we're no one now you know

crying out I'm tired  
what do you need now  
chemical me now  
stop the light somehow ...
