Do you have something to say?
Maybe that's why you keep callin', callin' me
Maybe you are too afraid
And that is why you keep stallin', stallin' because
You know there's something here that matters
So baby tell me so I can make things better
So you know that..

Nothing's important right now besides something
beautiful laying face down
Bury your eyes deep in the pillows of wanting more
than something that's capable
Nothing's important right now besides someone
suitable being left out
Bury our bodies so deep in the sheets of wanting more
than we really need

Break it down

Will you just give us a shot?
And before you discard our progress
And I know it's asking a lot but seeing you was a
promise
And I'm confident on how my heart decides
Till you decided to go and change your mind
And say that I can't spend the night
Cause you don't want to offend someone else you're
dating

Nothing's important right now besides something
beautiful laying face down
Bury your eyes deep in the pillows of wanting more
than something that's capable
Nothing's important right now besides someone
suitable being left out
Bury our bodies so deep in the sheets of wanting more
than we really need

Uh, come on
(Nothing's important right now)
Waiting on a heartbeat

That you've stolen from me
Waiting on a heartbeat
That's making me feel empty

Nothing's important right now besides something
beautiful laying face down
Bury your eyes deep in the pillows of wanting more
than something that's capable
Nothing's important right now besides someone
suitable being left out
Bury our bodies so deep in the sheets of wanting more
than we really need
