Let's keep the fire tame but keep our hands hot
I cannot get that ace so let me see a face card drop
We can play the field, if it feels right
Or we can spin the wheel and roll the dice for midnight

All that matters to me, girl, win or lose
Is an x-rated complete swirl of me and you
So if you want to see the show
Just come with me, baby
I will show you how I roll

Let's burn this filthy town
Straight into the ground
With our dirty looks and glances
Come on, can you hear us now
As we rock you, shock you, drop you
And make you want it more

We're gonna risk it all for the weekend
Cause I've been needing this time off
And everybody's drinking

You get excited, you can't hide it
When you hit the floor
The after party won't get started
Till bout three or four
So when you see me from across the room
(Hey Girl!)

You know what to do! Can you get me in the mood?

Let's burn this filthy town
Straight into the ground
With our dirty looks and glances
Come on, can you hear us now
As we rock you, shock you, drop you
And make you want it more

I'll make you want this
And make you want it more
It keeps on sucking me, sucking me in

You make me want it more
(to make me want it more)
You keep on sucking me, sucking me in
