I'd like to pack this in  
And take you to the stars  
We'll eat in fancy restaurants  
And drive in fancy cars  
We've tried our luck, we made a buck  
So lean back have some fun

Oh yes my love  
But first just this last one

We stood on these cliffs on a starless night  
I held your hand in mine  
So stand by me with all your heart  
I'll need you by my side

Oh the river is cold and black  
And the bottom is a long way down

Another one going underground

Why can't we cut the ropes  
And let that poor fool go

Don't you go getting weak on me  
Not when I need you so

We stood on these cliffs on a starless night  
I held your hand in mine  
So stand by me with all your heart  
I'll need you by my side

Don't lose your step  
Now we're almost there  
Go wash your face and comb your hair  
So trust me now, believe in me  
Forever more your love you have pledged to me

We stood on these cliffs on a starless night  
I held your hand in mine  
So stand by me with all your heart  
I'll need you by my side

We'll stay at home and call this day our own  
Listen to a record, watch a candle burn  
I'm feeling kinda drowsy  
There's blood on the floor  
When I'm gone you still will have  
My love for evermore  
My love for evermore

My love for evermore
