#### Verse 1:

Down the road a ways ilve heard said a new day's  
coming on  
Where the women folks are friendly and the law leaves  
you alone  
I'll believe it when I see it and I haven't seen it yet  
Don't mind me just keep on talking I'm just looking for  
my hat

#### Chorus 1:

There ain't no God in Mexico, ain't no way to  
understandA  
How that border crossing feeling makes a fool out of a  
man  
If I'd never felt the sunshine then I would not curse the  
rain  
If my feet could fit a railroad track, I guess I'd been a  
train

#### Verse 2:

Me and Louise Higgins-Botham used to chase across  
the yard  
Back in 1947 that's when more than times were hard  
Well pity me I didn't find the line in time like a fool  
In front of God and everybody I politely blew my cool

#### Chorus 2:

Ain't no God in Mexico, ain't no comfort in the king  
When you're down in Madamoris getting busted by the  
man  
If I'd never felt the sunshine, hell I would not curse the  
rain  
If I hadn't been railroaded well I guess I'd been a train
