Verse 1:

Don't sing them songs about the open road
I lost too many rainbows chasing pots of gold
I still remember what my baby said
It's still a knockin' around in back of my head

Chorus:

She said, I'm gonna lock the doors around about
midnight
Put bars on the window like a zoo
You ain't the man that reaches up to turn out my light
You're just another man's fool
Just another man's fool

Verse 2:

I left this morning had just one more chance
She caught me leaving by the seat of my pants
She said go on get out and have a good time
Don't bother coming home if you can't bring me mine
Chorus (x2).
