(Chips Moman - Steve Young)

Baby, go down to the drugstore buy me a guitar string  
Be sure to wear your coat girl 'cause it might rain  
'Cause honey, you know that rain is bad for my guitar strings  
Put on your warm coat honey, it's gonna be cold tonight  
Put on the one that's warm and long  
'Cause you're just before hearin' my brand new  
goodbye song.

Baby, I've tried your doctors, they just couldn't make  
me well  
The higher I tried to climb the farther I fell  
I guess it must have blew my mind sniffing the fumes  
of hell  
Put on your warm coat honey, it's gonna be cold tonight  
Put on the one that's warm and long  
'Cause you're just before hearin' my brand new  
goodbye song.

--- Instrumental ---

Baby, throw away my pillow just before you turn the  
light  
All you'll have next to you now will be the night  
I'll be somewhere wrong you'll be somewhere right  
Put on your warm coat honey, it's gonna be cold tonight  
Put on the one that's warm and long  
'Cause you're just before hearin' my brand new  
goodbye song.

--- Instrumental to fade ---
