Verse 1:

Girl I can tell you're trying to work it out
Trying to get a handle on what life is all about
Between womanhood and nursery rhymes
Trying to find the truth in lovers lies
Girl I can tell you're trying to work it out

Verse 2:

Girl I can see you're wanting to give it a try
Taking all the good and the bad, the truth and the lies
Feelings inside you you can't talk about
Feelings have a way of not coming out
Girl I can see you're trying to work it out

Verse 3:

Between womanhood and nursery rhymes
Looking for the truth in lovers lies
And the ties that bind
The things that last through time
Girl I can tell you're trying to work it out
