Verse 1:

The mystery of you and me
Is colored blue on blue
We wanted more than we could give
We couldn't see it through
You won't believe, these words from me
Still they're mine to say
I will always love you in my own crazy way

Verse 2:

I tried to keep my sanity
By being someone else
Someone that you could hold on to
I only fooled myself
I knew the part but in my heart
A role that I couldn't play
I will always love you in my own crazy way

Chorus:

Oh, I still love you
I'll always love you
In my own crazy way

Verse 3:

Memories of you and me
Are written on the wind
Sometimes girl I'd give the world
To do it all again
If you should need to call on me
I won't be far away
I will always love you in my own crazy way

Chorus:

Oh, I still love you
I'll always love you
In my own crazy way
