

Hippos, The "Lost It"

Visit "[Lost It](#)" on MotoLyrics.com

Can you see what I am seeing?
Now that I am on my own
I can't explain the way I'm feeling
I question everything I know
I can't believe what she said
It went straight to my head
I'm lackin inspiration, where's my inspiration?

I had it and I lost it now you gotta help me get it back
again (x2)

I can't believe a word she says to me
It brings me closer to insanity
Why can't she just understand,
The things she says could kill a man
I can't believe what she said
It went straight to my head
I'm lackin inspiration, wheres my inspiration?

I had it and i lost it now you gotta help me get it back
again(x2)

Well I can't take it, ill never make it, the things she says
are bringin me down

I had it and i lost it now you gotta help me get it back
again (x2)
