

Hippos, The

"Slow It Down"

Visit "[Slow It Down](#)" on MotoLyrics.com

I can give you something to break
If you just let me know
The road of destruction you've paved
How much longer will it take?

Save yourself before it's passed
You know you're never gonna last
You're never gonna last
You're never gonna last.

You know you're never gonna last
We'll see you later on the way out
So you best get out of the way
We understand the point you failed to make.

Calm down didn't mean to shout
Brace yourself you're going too fast
You know you're never gonna last
You're never gonna last

You're never gonna
Slow it down before you crash
No you're never gonna last
I can give you something to break
If you just let me know
The road to destruction you've paved
How much longer will it take?

Save yourself before it's past
You know you're never gonna last
You're never gonna last
You're never gonna.

Slow it down before you crash
You know you're never gonna last
Slow it down before you crash
You're never gonna last
Slow it down before you crash
No you're never gonna last...
