Word gets around from shore to shore  
We got the sound  
You've been looking for

They try to keep us down  
But we're back for more  
We got the sound  
You've been looking for

We're here  
So clear  
Turn up your radio  
Till your speakers both explode  
Turn up your radio

They go no style  
And they're such a bore  
We got the sound  
You've been looking for

You better hide your dollars  
Better lock your doors  
Cuz we got the sound  
We've been looking for

Are here  
So clear  
Turn up your radio  
Till your speakers both explode  
Turn up your radio

We're here  
So clear  
Turn up your radio  
Till your speakers both explode  
Turn up your radio

The time has come to choose  
Which side you're on  
We've been waiting for so long (We've been waiting for  
so long)

The time has come to choose  
Which side you're on  
The revolution's near so clear  
We're here

Turn up your radio  
Turn up your radio

We are here  
So clear  
Turn up your radio  
Till your speakers both explode  
Turn up your radio

We are here  
So clear  
Turn up your radio  
Till your speakers both explode  
Turn up your radio

We're here  
So clear  
Turn up your radio  
Till your speakers both explode  
Turn up your radio
