When Billy was growing up he said I want to be  
superman I'm gonna eat my spinach and be strong I  
Wanna save the world When Jenny was 3 years old she  
Picked a bird fallen from the nest She raised it till it  
could fly she said I want to save the world

Chorus: Where are you now, you childhood dreamers?  
We need you to save us somehow Throw the dust off of  
your dreams And save the world

When I was in school I Thought I'd be a scientist Or  
maybe president or at least I'd save the world Oh how  
we mourn the loss of Those school kid dreams Of who  
we thought we'd be When we thought we'd save the  
world

Bridge: But we sit and wait And watch the days go by  
us But you know those dreams are Still inside us It's up  
to you, it's up to me it's up to us Wooo oh oh oh Come  
on, come on, wo oh oh let's save the world!

If we took the will of All those school kid dreams  
Dragged them from beneath the dirt oh We could save  
the world So look back to the days when You were three  
feet tall And do what you thought you would When you  
thought you'd save the world

Chorus: Where are you now, you childhood dreamers?  
We need you to save us somehow Throw the dust off of  
your dreams And save the world

When billy was growing up he said I want to be  
superman I'm gonna eat my spinach and be strong I  
wanna save the world.
