When we waltz, when we waltz, when we waltz I don't
want to feel the way I feel Your arms holding me tight,
spinning me around the floor I can't help but feel the
way I feel. I hope you can't hear the catch in my breath
When you twirl me, twirl me, twirl me around And when
you say to me "oh how I like waltzing with you" I hope
you can't see inside of me I don't want you to know how
I feel Because when you ask me to dance You know I
can't say no

Chorus: When we waltz, when we waltz, when we waltz,
I can't feel my feet hit the ground My heart is in your
hands, When we waltz, when we waltz

So take me into your arms gently Because I'm feeling a
little bit fragile I hope you can't see my face When you
twirl me around Won't you take me into your arms
again I don't want this dance to end

Chorus: When we waltz, when we waltz, when we waltz,
I can't feel my feet hit the ground My heart is in your
hands, When we waltz, when we waltz
