Walk blindly to the light and reach out for his hand

Don't ask any questions and don't try to understand

Open up your mind and then open up your heart

And you will see that you and me aren't very far apart

'Cause I believe that love is the answer

I believe that love will find the way

Violence is spread worldwide and there are families on the street

And we sell drugs to children now oh why can't we just see

That all we do is eliminate our future with the things we do today

Money is our incentive now so that makes it okay

But I believe that love is the answer

I believe that love will find the way

I believe that love is the answer

I believe that love will find the way

I've been seeing Lisa now for a little over a year

She said she's never been so happy but Lisa lives in fear

That one day daddy's gonna find out she's in love

With a nigger from the streets

Oh how he would lose it then but she's still here with me

'Cause she believes that love will see it through

And one day he'll understand

And he'll see me as a person not just a black man

'Cause I believe that love is the answer

I believe that love will find the way

I believe I believe I believe I believe that love is the
answer

I believe that love will find the way

Love will find the way

Love will find the way

Love will find the way

Please love find the way

Please love find the way
