She said she said to me  
Whatcha' thinkin' of  
She said she said to me  
In the game of love

(Leave to your mind to decide where you are)  
Sometimes the words seem so hard for me to say  
(Look through the past and you'll know just how far)  
Inside it's no fun just gettin' through the day

He's Takin' Your Heart Away  
He's Takin' Your Heart Away

You know you know the scene  
You've been all around  
You know you the scheme  
Of givin' what you've found

(Leave to your mind to decide where you are)  
Since all these changes I'm spending time alone  
(Look through the past and you'll know just how far)  
Thinkin' I just want to call you on the phone

He's Takin' Your Heart Away  
He's Takin' Your Heart Away

Reach out reach out for love  
If you feel it there  
Reach out reach out for love  
But baby I still care

(Leave to your mind to decide where you are)  
These are the sensations tearing me in two  
(Look through the past and you'll know just how far)  
Her in this emptiness all because of you

He's Takin' Your Heart Away  
He's Takin' Your Heart Away
