""The Christmas Song""

Visit [""The Christmas Song""](#) on MotoLyrics.com

Here we are another year's gone by
Changing seasons fill the air
Christmas cheer has come and now it's time
To feel the spirit in the love we share

It's Christmas it's Christmas
The magic's in you when your heart's in
Christmas it's Christmas
So tell the children Santa's on his way

The elves are pleased to know their work is done
Celebrating by the fire
They're calling everyone let's have some fun
After all it's here for you and I

It's Christmas it's Christmas
The winter messenger's in time for
Christmas it's Christmas
Returning fantasies of Christmas Day
"Merry Christmas to all from The Hobbit Family"
