

Hobos, The "Can You Love"

Visit "[Can You Love](#)" on MotoLyrics.com

Is it happiness there in your eyes?
Are you the same girl from the other side?
You came hear raining from above
As if it's known that I some day will know

Can you love?

Why aren't you quite entertained
When it hits there right in your brain
Well it doesn't work any more
Your hazy mind will slip and go

Can you love?

You stood and cried behind the door
You looked at me the way you've never looked before

Can you love?
When it hits there right in your brain
