I used to drink Coca Cola
And eat at McDonald's
And sip whiskey on lonely saturday nights

But now i'm gonna be a christian a christian a christian
if you want me to
I'm gonna be a christian a christian a christian if you
want me to
Well if you want me to

I used to go to different gurus
And laugh at Jesus Christ
And when you came to me that day
I thought that all you said were lies

But now i'm gonna be a christian a christian a christian
if you want me to
I'm gonna be a christian a christian a christian if you
want me to
Well if you want me to

I used to make a lot of chicks
And whatch Hollywood movies
And roll joints in ancient Indian cities

But now i'm gonna be a christian a christian a christian
if you want me to
I'm gonna be a christian a christian a christian if you
want me to
Well if you want me to
