All night you didn't answer the phone  
Through the stone at your window  
You turned on the lights, got so scared  
Run away oh nowhere to go  
Give me a try  
And I will make you mine  
I make your love a part of my time  
La la la

All stunned I'm watching the pictures on the wall  
They don't remind me of anything at all  
Even of you

Fantasizing of what could be done  
Did your best, so have some  
You will see me running through the wall  
Enjoying myself on the floor
