Gravitation deceives 17 thieves lawyer achieves his
aim
Cogwheel goes round popgun makes sound
Leader will win the game
Ropedancer succeeds Prime Minister bleeds
Does he need a new name?
Two lovers kiss old man is pissed
He never found bliss but I'm

Flying, flying away...

Acid changes the world now not being born is all I need
I was called by a man who called me a friend
Was I able to lead?
Camels looking so sad they need me so bad what can I
do
All around they see me and eyes which can see can
also see you and I'm
