"Lullaby"

Sleep my baby sleep tight
Maybe this is your last night
Cos noone knows when you stop breathing
When you get light
When you get easy

Sleep mu baby
Don't be sad
Cos maybe tomorrow you wound up dead
And this sweet luluby
Is the last song world ever had

Sleep my baby
With this sound
Maybe tommorow your feet may not touch the ground
So don't you worry don't you cry
Sleep my baby - close your eyes

Sleep my baby you look tired
And maybe tommorow you'll get hooked off the wire
And your eyes - your round wide screens
Will not show anything and won't see

Sleep my baby
Watch your dreams
There you run free and you're so real
And the whole wide world
Will live in peace
