"Walk All Night"

Visit "[Walk All Night](#)" on MotoLyrics.com

Now you treat me kindly
Stuck in a traffic - here is the schedule
Ignore the red light, don't let them pass you.
Are you tired or not?
Ain't gonna let you sleep, you'll come with me
We're gonna waste our time
Gonna take a walk all night
Hear the stranger voices, see them people painting
On the fences, they are writing
That big old OM.
And then again against the wall
they are scooping out that 16 year old girl
Who's whispering sigh

We gonna take a walk all night, all night...

Cigarettes oh cigarettes, chain's straining
Don't you worry now - see the morning
Snow up in the mountain tops.
They are higher, they can see
As we're walking down the streets
Wasting our time, gonna take a walk all night.
