Your smile was so sweet  
while od-ing in my car in the back seat  
ceremony  
will be over in a short while  
let us change the music  
that's been on my radio  
for too long a time

sold my soul  
to a foul lawyer  
claimed to be a soul buyer

Worry not Worry not  
you ain't gonna get shot  
you are destined to be burnt in the spark of love

She tried to guess who i was  
but in the mean time i bust out in hysterical laughter  
Old man approached told us to go  
but we got married instead

Worry not Worry not  
you ain't gonna get shot  
you are destined to be burnt in the spark of love
