We met on the 21st of July  
you were so, yeah and so was I  
it was a hot day, little windy though  
Sun's reflecting on the sea with red and yellow and  
pink colours on it  
and you - you just loved it  
We were sitting in the sand hot hot  
i heard you say you like me alot  
but does it imply as well  
the joyful melody of a wedding bell  
Your beautiful your pretty your so nice  
Your beautiful your pretty your so nice  
so nice  
You quoted some passages from the Koran  
I told you something about Kahlil Gibran  
we were kissing in the sun  
you said that we could be together forever  
but somehow on the next day I couldn't find your  
number  
Your beautiful your pretty your so nice  
Your beautiful your pretty your so nice  
One thing I like about you  
You don't need to be dated twice  
Your beautiful
