A cold wind blows, I am shivering  
My body aches, as my heart is breaking  
Why is life making me hollow  
Why is happiness casting me in the shadows  
In the shadows

Hold on, don't turn and walk away  
Save me  
And I cried these words but nobody came

I'm all alone, running scared  
Losing my way in the dark  
I tried to get up, stand on a prayer  
But I keep crashing down hard

This is my side of the story  
Only my side of the story  
Nobody cares, nobody's there  
No one will hear, my side of the story

Emptiness, it's all around me  
I tried to catch my breath  
I'm barely surviving  
And I can't go on and I come undone  
And there's nothing left in me

Hold on, don't turn and walk away  
Save me  
And I cried these words but nobody came

I'm all alone, running scared  
Losing my way in the dark  
I tried to get up, stand on a prayer  
But I keep crashing down hard

This is my side of the story  
Only my burden to bear  
Nobody cares, nobody's there  
No one will hear

As I fall down

As I fall in

I cried these words but nobody came

I'm all alone, running scared  
Losing my way in the dark  
I tried to get up, stand on a prayer  
But I keep crashing down hard

This is my side of the story  
Only my side of the story  
My side of the story  
Only my burden to bear  
But nobody cares, nobody's there  
No one will hear  
My side of the story
