:Every single time i step in the place  
I see di gal dem move up their waists  
So good, so good  
Nice time, nice vibe everytime  
Hoffmaestro and the Double K sound

This one is for you  
Lift up your hand for the raving crew  
This one is for you  
The melody sticks to your brain like glue  
Thats why, thats why, thats why  
We be feelin' the vibe  
Thats right, thats right, thats right

You step out the car and you smell like gin  
But the guard is your friend so you get right in  
How good, how good  
Just one of them nights when it cant go wrong  
The DJs loud and he's playing your song  
He's saying this one is for you  
I dont care if you're green, black or blue  
This one is for you  
The melody stick to your brain like glue  
Thats why, thats why, thats why  
We be feelin' the vibe  
Thats right, thats right, thats right

Lift up ya hand for the raving crew  
This one is for you
