:Got left
Got left
I got left again
That woman was my sweetest friend
Got left
Got left
I got left again
That woman was my sweetest friend
That woman was my sweetest friend

I cant eat
I cant sleep no more
And loneliness is at my door
That girl wont give my mind no rest
My heart feels cold inside my chest yes yes
My heart feels cold inside my chest

You dont text
You dont ever call
It seems you dont miss me at all
And now i lay here by myself
While you might be with someone else else else
While you might be with someone else

Got left
Got left
I got left again
That woman was my sweetest friend
Got left
Got left
I got left again
That woman was my sweetest friend
That woman was my sweetest friend:
