If you've got some ass to spare
me and my boys will be right there
don't be alarmed girl don't be scared
you're not alone girl we'll be right there
whats that lovely sound in your ear
voices warm and oh so clear
we bring the reefer you bring the beer
cause we're gonna have a party in here

who be them boys who take a bite of that shit yall
we be them boys who take a bite of that shit
we be them boys who take a bite of that shit x2

if you've got some smoke to spare
me and my boys will be right there
don't be stinchy my friend like you care
just pick up on the vibe in the air
nasty men with big long beards
all the girls are running in fear
computer nerds you better stay clear
cause we gonna have a party in here
Ref x2
