"Love Train"

Visit "[Love Train](#)" on MotoLyrics.com

You're a work of art
You're the Trevi Fountain
You're golden heart
You're the highest mountain
You bring me flowers every day of my life
You save me from the worry and the strife
Take me in your arms baby, baby
I'm on a winning streak
When I met you I reached my peak
Your perfect view makes me feel brand-new, yeah
Well you're just right to keep me up all night, up all night

Working all the time to make you mine, all mine, yeah
Riding the love train
Stroke it up, riding the love train
Loving all the time to keep you feeling fine, yeah
Riding the love train
Stroke it up, riding the love train

You make time stand still
You're children's laughter
Love's overspill
I'll come running after
You bring the spring right through my door
You're everything that's worth living for
Thrill me with your charms baby, baby
My knees are weak, I need you now, don't play hide and seek
No time is long enough, leaving you is tough
Well you're just right to keep me up all night, up all night

Working all the time to make you mine, all mine, yeah
Riding the love train
Stroke it up, riding the love train
Loving all the time to keep you feeling fine, yeah
Riding the love train
Stroke it up, riding the love train

Keep the flame burning

Let your spirit fly
Stay on the right track baby, 'til the day I die
Keep the coal coming baby, baby
I'm on a winning streak
When I met you I reached my peak
Your perfect view makes me feel brand-new yeah
Well you're just right to keep me up all night, up all
night

Riding the love train
Stroke it up, riding the love train
Loving all the time to keep you feeling fine, yeah
Stroke it up, stroke it up, riding the love train
Working all the time to make you mine, all mine, yeah
Riding the love train
Stroke it up, riding the love train
Loving all the time to keep you feeling fine, yeah
Riding the love train
Stroke it up, riding the love train
Working all the time to make you mine, all mine, yeah
Riding the love train
Stroke it up, riding the love train
Loving all the time to keep you feeling fine, yeah
Riding the love train
Stroke it up, stroke it up
