Oh, I can figure that you really need my love
'Cause I've been in the twilight far too long
So I'll unlock my heart and throw you the key
And you can do what you want with me
This time, I'll put my soul on the line

Misty canyon
How I search for my soul rescue
Through the vapors
King of hearts, oh won't you take me

Spent distant nightfalls walking through the mountain
trails
'Cause I've been faded to see love again
And all my spirits say to me
When is lady luck gonna take this spell off me?
I know, I'll put my heart on his soul, heart on his soul

Misty canyon
How I search for my soul rescue
Through the vapors
King of hearts, oh won't you take me

Misty canyon
How I search for my soul rescue
Through the vapors
King of hearts, oh won't you take me

All my spirits say to me
All my spirits say to me
All my spirits say to me
