

## Anjali "Rani Of Jhansi"

Visit "[Rani Of Jhansi](#)" on MotoLyrics.com

Feed the hindu dirty water  
With the blood from the sacred cow  
And what you gonna feed them now?  
200 years without respite  
200 years, yeah, we're always gonna fight  
And what you gonna feed them now?

From udam singh to lakshmi bai

Spirit lives on and on  
So don't forget what they did to you then  
And don't ever let it happen again...

Happen again

And now the scars don't hurt so much  
And you can forget what you did to us  
In this utopian imperial world  
And all the names, the pillages and the pain  
From the black  
In my eye to the blue in my veins  
Spirit lives on and on and on and strong  
So hold on to what you are  
They'll never steal what you really are
