"With You"

I never showed you all my love
I kept it in for the last three years
And now I know it's true
I wanna pour my heart out to you
I'm not sure if you feel the same way I do
I just have hopes so high
You know I do

You make me go oooo, oooo, oooo, oo, I don't stop
thinking about
You oooo, oooo, oo, I wanna be with you

You always kept me safe in your arms
You never ever let go
You'd apologize but it was never your fault
When you knew I was down you'd hold my hand and
say
You love me, you love me til the end

You make me go oooo, oooo, oooo, oo, I don't stop
thinking about
You oooo, oooo, oo, I wanna be with you

I fought with you but you never fought back
I don't know why but then I got over it
And forgot about you
We were perfect in our own little world
Maybe not to you
But for me, ya know I loved you

You make me go oooo, oooo, oooo, oo, I don't stop
thinking about
You oooo, oooo, oo, I wanna be with you
