"The Faint And Precious Sounds"

Though I cannot hear a word that you're saying
I can still feel your, feel the warm air, feel the warm air
that travels from your whisper as I, try to decipher the
undecipherable

I'm waiting for you to lean in again
With those faint and precious sounds,
Turn my head halfway and I will
I will swallow each one of them down,
Swipe the remaining thoughts from your lips,
Your face so close everything else eclipsed

In the event of your unfulfillment don't replace me in
that sorry state
Oh no
I know that it all seems so intriguing when thoughts of
me start leaving you behind

I hope that you, you understand that I'm not leaving,
going anywhere [x2]

Don't bother telling me what it is you did tonight
'cause I've already got an idea
And I know you did it like I was never there,
Like I was never there

Well this phone just impersonates your voice night
after night

I'm waiting for you to lean in again
With those faint and precious sounds,
Turn my head halfway and I will
I will swallow each one of them down,
Swipe the remaining thoughts from your lips,
Your face so close everything else eclipsed

In the event of your unfulfillment don't replace me in
that sorry state
Oh no
I know that it all seems so intriguing when thoughts of

me start leaving you behind, behind

And I hope that you, you understand that I'm not
leaving, going anywhere [x2]

'cause this phone impersonates your voice night after
This phone impersonates your voice night after night
Night after night
This phone impersonates your voice night after night

And everything I start I can't even finish, oh no
And all of the while [x3]
And baby, baby, baby [x2]
I owe you, I owe you, I owe you, I owe you nothing
I owe you, I own you, I owe you nothing
