Now if you want a man  
Who treats you like you're nothing but something to do  
Go ahead with him

But if you want a man  
Who knows that his purpose is only to care for and love  
you true  
I would die for you. I would die for you

So get over yourself  
Oh, get over yourself

If you say you're in pain  
For the pain to go away  
You put lovin' in its place

Now if you want a man  
Who gets his way every night, every day he's the way  
to go  
But I told you so

But now if you want a man  
Who knows what you need and will give you the  
freedom to do it babe  
I'll be here to say

(Chorus)

Now if you want a man  
Who cheats and lies and wears a disguise you can see  
him through  
he's fooling you  
But if you want a maaaaaaaaaaaaaaaaaaaaan  
Who makes you see it's ok to believe in love again  
I wanna be your friend  
Tonight

(Chorus x2)
